***Response to Amendment***

The replies filed on January 26, 2005 and February 10, 2005 are not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

In response to the Notice of Non-Compliant amendment addressing the applicants' amendment of January 21, 2005, the applicant has identified claim 24 as "(new)" and has used the terminology "tubes" (this amendment was received by the USPTO on February 10, 2005). On the contrary, the applicants' supplemental amendment received by the USPTO on January 26, 2005 has identified claim 24 as "(previously presented)" and has used the broader terminology "conduits". It appears as though the applicants prefer to use the term "conduits" instead of "tubes" (see page 5 of supplemental amendment of January 26, 2005), but the response to the Notice of Non-Compliant amendment arrived at the USPTO on February 10, 2005 with use of (non-preferred?) terminology "tubes", while listing claim 24 as "(new)" instead of "(previously presented)". In summary, the applicants' amendments of 1/26/05 and 2/10/05 are in contradiction, and it is unclear which of these amendments is the "official" one. The applicants are required to provide an updated amendment that clearly shows proper claim terminology (conduits or tubes) and claim status identifiers.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to
